So according to Victor Anderson in his book Beyond Ontological Blackness, blacks in this country have developed a counter-discourse to racism that has morphed itself, if you will, into what can be categorized as ontological blackness. In short, without parsing his book and his argument, when the average black person approaches the subject of race, we approach it as racial apologists.

Our desire to move beyond "ontological Blackness"—as Victor Anderson would describe it¹¹—becomes something similar to the psychoanalytic notion of objet(a). Blackness is the imaginary wholeness or origin that we are in constant pursuit of, but never can quite approach—indeed, if we successfully capture it, we die.

Anderson views Cornel West and Howard Thurman as two African-American religious thinkers who see beyond ontological blackness. West is Christocentric, but holds a prophetic pragmatism that frees him. Thurman holds a mystical universalism, and yet his optimism regarding human reconciliation does not meet the postmodern test.
