By upgrading the US Army and Marine Corps Blue Force Tracking network, Viasat brings real-time situational awareness and better networking capabilities to the warfighter with BFT2. The next-generation Blue Force Tracking 2 network and transceivers provide dramatic improvements in situational awareness through faster Position Location Information (PLI) refresh rates and timely Command & Control (C2) communications across the battlefield compared to the legacy system.

### Blue Force Tracking 2 | Viasat

Blue force tracking is a United States military term for a GPS -enabled capability that provides military commanders and forces with location information about friendly (and despite its name, also hostile) military forces. In NATO military symbology, blue typically denotes friendly forces. The capability provides a common picture of the location of friendly forces and therefore is referred to as the blue force tracker.
