system defines dominance, authority, and responsibility in a military hierarchy. It incorporates the principles of exercising power and authority into the military chain of command - the succession of ...

Military rank - Wikipedia

the interplay of opposing forces. To Hegel, the creation of an individual's identity is subject to this interplay of opposites: In order to define oneself, one must define something in opposition to oneself. While this is a natural process used by humans to define themselves, de Beauvoir (1949) claims that it is flawed in its
