Britannica

Positivism is part of a more general ancient quarrel between philosophy and poetry, notably laid out by Plato and later reformulated as a quarrel between the sciences and the humanities. Plato elaborates a critique of poetry from the point of view of philosophy in his dialogues Phaedrus 245a, Symposium 209a, Republic 398a,

File Type PDF Critique Of Logical Positivism

The contention surrounding post-structuralism makes it an interesting theory to study. Few fields have invited as much criticism towards its very principles and methods, which have been chided as failing to “establish any authentic theoretical innovations.”[1] In this essay I will examine what ‘critique’ means in the context of post-structuralism, and will
