## Dignity Of Risk

Dignity of risk is the idea that self-determination and the right to take reasonable risks are essential for dignity and self esteem and so should not be impeded by excessively-cautious caregivers, concerned about their duty of care. The concept is applicable to adults who are under care such as elderly people, people living with disability, and people with mental health problems. It has also been applied to children, including those living with disabilities.

## Dignity of risk - Wikipedia

The Dignity of Risk acknowledges that life experiences come with risk, and that we must support people in experiencing success and failure throughout their lives. However, it can be a challenge to support decisions that we feel are risky, or with which we don't agree, without our safety-oriented health care culture.
