Finding Nemo New York Science

Finding Nemo is a 2003 American computer-animated comedy-drama adventure film written and directed by Andrew Stanton, released by Walt Disney Pictures on May 30, 2003 and the fifth film produced by Pixar Animation Studios. It tells the story of the over-protective clownfish named Marlin (Albert Brooks) who, along with a regal tang named Dory (Ellen DeGeneres), searches for his son Nemo ...

Finding Nemo | Disney Wiki | Fandom

Finding Dory is a 2016 American computer-animated adventure film produced by Pixar Animation Studios and released by Walt Disney Pictures. Directed by Andrew Stanton and written by Stanton and Victoria Strouse, the film is a sequel to Finding Nemo (2003) and features the returning voices of Ellen DeGeneres and Albert Brooks,

Twin films are films with the same, or very similar, plot produced or released at the same time by two different film studios. The phenomenon can result from two or more production companies investing in similar scripts around the same time, resulting in a race to distribute the films to audiences. Some attribute twin films to industrial espionage, the movement of staff between studios, or ...
