Language In Context Selected Essays

In Language and Context, Jason Stanley presents a series of essays which develop a theory of how the situation in which we speak interacts with the words we use to help produce what we say. The reason we can so smoothly operate with sentences that can be used to express very different items of information, Stanley argues, is that there are linguistically mandated constraints on the effects of the situation on what we say.

But, many of the essays are (or quickly becoming classics), e.g. "Context and Logical Form." Many of the essays are technical and so if you are unfamiliar with formal semantics, the semantics-pragmatics distinction, semantic minimalism and contextualism, I would suggest another work to start, e.g. Francois Recanati's "Literal Meaning," Emma ...

There are six main characteristics of effective language. Effective language is: (1) concrete and specific, not vague and abstract; (2) concise, not verbose; (3) familiar, not obscure; (4) precise and clear, not inaccurate or ambiguous; (5) constructive, not destructive; and (6) appropriately formal. Concrete and Specific Language
