introduction to a key component of legal globalization analysis. Global Administrative Law theory is a crucial complement to all existing international law approaches, flowing from the realization that the world is nowadays increasingly governed by bodies – and networks of bodies – that have an administrative rather than political role.

administrative law (GAL) was conceived, a context that naturally influenced its genesis and its original traits. This paper focuses on GAL scholarship and its development. The analysis is divided into three parts. First, the genesis of GAL, its scholarship in the early 2000s and its first steps is outlined.
