Okay everyone that watches a 50 year old movie is 50. Ok Boomer got it. Possibly the most polarizing film in a much-debated filmography, Stanley Kubrick's A Clockwork Orange receives a remarkable visual upgrade, though the lack of an upgraded version of the original mono soundtrack is a frustrating oversight.

Dell's Studio brand was a range of laptops and desktops targeted at the mainstream consumer market. The computers sit above Dell's Inspiron and below the XPS consumer lines in price and specifications. They differ from Dell's lower-end Inspiron models by offering slot-loading optical drives, media keys, more cover design options, faster processor options, HDMI and eSATA ports, LED-backlit ...

Honestly, I don't mind having smaller games digitally, though this IMO, qualifies as a full AAA release. For despite some obvious flaws, it felt like a top notch gameplay experience overall. Gameplay first, then the story, acting, cutscenes 2nd in terms of importance IMO, since I'm here to play a video game first.
