Google Books will remember which page you were on, so you can start reading a book on your desktop computer and continue reading on your tablet or Android phone without missing a page.

### Touch And Feel Farm Touch

Skin has many types of receptors that help you feel the things that you touch. In your body, a receptor is a structure that can get information from the environment. The information is then changed into a signal that can be understood by the nervous system .

### Feeling Touch | Ask A Biologist

Making Sense of Touch You can feel your friend touch your shoulder because of your touch receptors. Image by Alex Proimos. You're walking around your neighborhood and your friend sees you from across the street. As she catches up to you, you feel a tap on your right shoulder. You turn your head to look over that shoulder to see her smiling, excited to have run in to you.

### Understanding Touch | Ask A Biologist

Therapeutic Touch is a contemporary interpretation of several ancient laying-on-of-hands healing practices. Delores Krieger,
